

Landscape

Dale and his crew have been working hard keeping up with the growing Florida Grande jungle! The rains have made the place grow, grow, grow! He has trimmed all the hedges this summer and the flower beds look good. Please remember that unless there is an immediate danger to person, pet, or property you should bring any concerns or complaints to **MY ATTENTION** in the office. The POA hires Dale's company to provide the work (bulk work, not custom) and it is my job to direct Dale and his crew. I appreciate your help in this subject.
